

Machine Learning PhD: Request for Approval of Doctoral Minor

Name:

Home school:

GT ID:

Instructions: Please list the courses that you plan to use for the required minor below. These courses must form a cohesive course of study. The courses must come from outside the ML PhD curriculum; **no courses that can count as core or elective courses can be used toward fulfillment of the minor.** Also include a brief description (2-3 sentences) below of how these courses come together to form a minor. The course of study must be approved by your thesis advisor before submitting to the ML PhD Academic Advisor for approval.

For the Semester column below, list either the semester the course was taken or the semester that you plan to take it.

Course Number	Title	Semester	Hours

*Students entering the program in summer 2023 or those who have switched to the new curriculum of 202305, will be required to take 2 minor courses, 6 hours. Otherwise, students entering before summer 2023 on previous curricula, the requirement is 3 courses, 9 hours
